

NERVYX ONE

ADAPTIVE MARKET INTELLIGENCE

Sense. Decide. Adapt.

01 BRAND FOUNDATION

A market nervous system.

NERVYX ONE unifies market sensing, parallel model intelligence, regime routing, trust gates, risk controls, and replayable execution into one adaptive operating system.

ADAPTIVE

Changes behavior with market state.

EVIDENCE-FIRST

Every decision can be reconstructed.

CONTROLLED

Risk and trust gates remain authoritative.

CALM

Technical confidence without hype.

02 LOGO SYSTEM

The Neural Signal Mark

NERVYX

ONE

ADAPTIVE MARKET INTELLIGENCE

The angular N carries the system signal. A crossing accent reveals the X and establishes the visual idea of multiple intelligence paths converging on one decision.

CLEAR SPACE

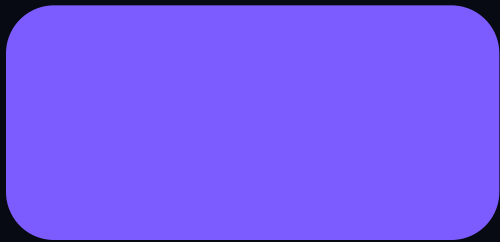

Minimum: 1 signal-stroke width

SMALL-SIZE RULE

Use the symbol below 160 px.

03 COLOR SYSTEM

Institutional dark. Controlled signal.

NEURAL VIOLET

#7C5CFF

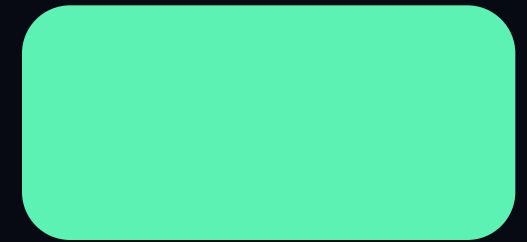

SIGNAL BLUE

WARNING

#FFB547

RISK

#FF5D7A

Use cyan for active intelligence and mint for verified or clear states.

Use amber for caution; reserve coral for risk, blocks, or failure.

04 TYPE + VOICE

Inter Display ExtraBold

Adaptive market intelligence

Inter Regular supports calm interface copy
and precise operational detail.

DATA 0.742 / TRUST CLEAR / REPLAY LINKED

VOICE

- Precise, not promotional
- Confident, not absolute
- Technical, not cryptic
- Controlled, never reckless

PRIMARY LINE

Sense. Decide. Adapt.

SECONDARY LINE

One system. Every market state.

05 PRODUCT ARCHITECTURE

One brand. Specialized systems.

NERVYX SENSE

Data ingestion + trust

NERVYX CORE

PPO + MASA intelligence

NERVYX SHIFT

Regime + strategy routing

NERVYX GUARD

Risk + execution gates

NERVYX REPLAY

Evidence + reconstruction

NERVYX EXECUTE

Paper/live lifecycle

NERVYX OBSERVE

Monitoring + soak proof

Three modes. One visual language.

07 UI STATE LANGUAGE

Color communicates authority.

	CLEAR	Verified / safe to continue
	ACTIVE	Current signal / model state
	INTELLIGENCE	Model or strategy context
	CAUTION	Operator attention
	BLOCKED	Risk or trust denial

DECISION CARD

Market state	TREND
Trust gate	CLEAR
PPO + MASA	ALIGNED
Execution	PAPER ONLY

LIVE SUBMIT BLOCKED

08 USAGE RULES

Protect the signal.

DO

- + Use approved dark/light lockups
- + Preserve clear space
- + Use symbol for small icons
- + Keep messaging evidence-first

DO NOT

- Stretch or rotate the mark
- Add casino/coin imagery
- Use glow-heavy cyber effects
- Promise returns or certainty

**The brand should feel like precision infrastructure,
not a speculative trading product.**

09 BRAND MESSAGING

NERVYX ONE

Sense. Decide. Adapt.

An adaptive market intelligence system that synchronizes trusted data, parallel models, regime-aware routing, disciplined risk, and replayable execution.

POSITIONING STATEMENT

For systematic operators who need intelligence they can verify, NERVYX ONE turns complex market state into controlled decisions without sacrificing evidence, risk authority, or operational clarity.
